

A brief story about Brazil-Indonesia Friendship Assosiation

[Mr. Anand Krishna](#) was invited to attend Earth Dialogues in Brazil (November 26-28, 2008). Earth Dialogues is a forum which was formed by Mikhail Gorbachev (Ex President of Soviet Union). Presenting many representatives from all over the world. This forum has 3 main purposes; to anticipate disaster, end poverty and maintenance development in order to support humanity.

Mr. Anand Krishna brought a presentation about water. The title was "From Bali to Belo Horizonte, Wisdom of the Ancients". This section was moderated by the Ex President of Portugal, Mario Soares.

Mr. Anand Krishna said that people are facing water problem now because of human greedy by making water as commodity. The audiences gave remarkable responses. Therefore, Mr. Anand Krishna's idea was being used as the resolution in this forum. We must be proud because Mr. Anand Krishna was the only representative from Indonesia.

Then, Brazil-Indonesian Friendship Association was formed and got fantastic responses from many friends there. From only 7 signatures which were expected, 27 signatures addition was received at the last minute. Brazil -Indonesia Friendship Association will be in form of a website. It will become an instrument to reciprocate cultural information between Brazil and Indonesia.

The atmosphere was getting more alive when Mr. Anand Krishna said, "Greetings from 220 people of Indonesia to Brazil" in Portuguese language :)
